

Demo Screenshots

The **HouseHunt Role Selection Page** is the first screen displayed to users, allowing them to choose between **User**, **Landlord**, and **Admin** roles. Each role provides a brief overview of its functionalities and a "**Continue**" button for role-specific login and dashboard access, ensuring a secure and personalized user experience.

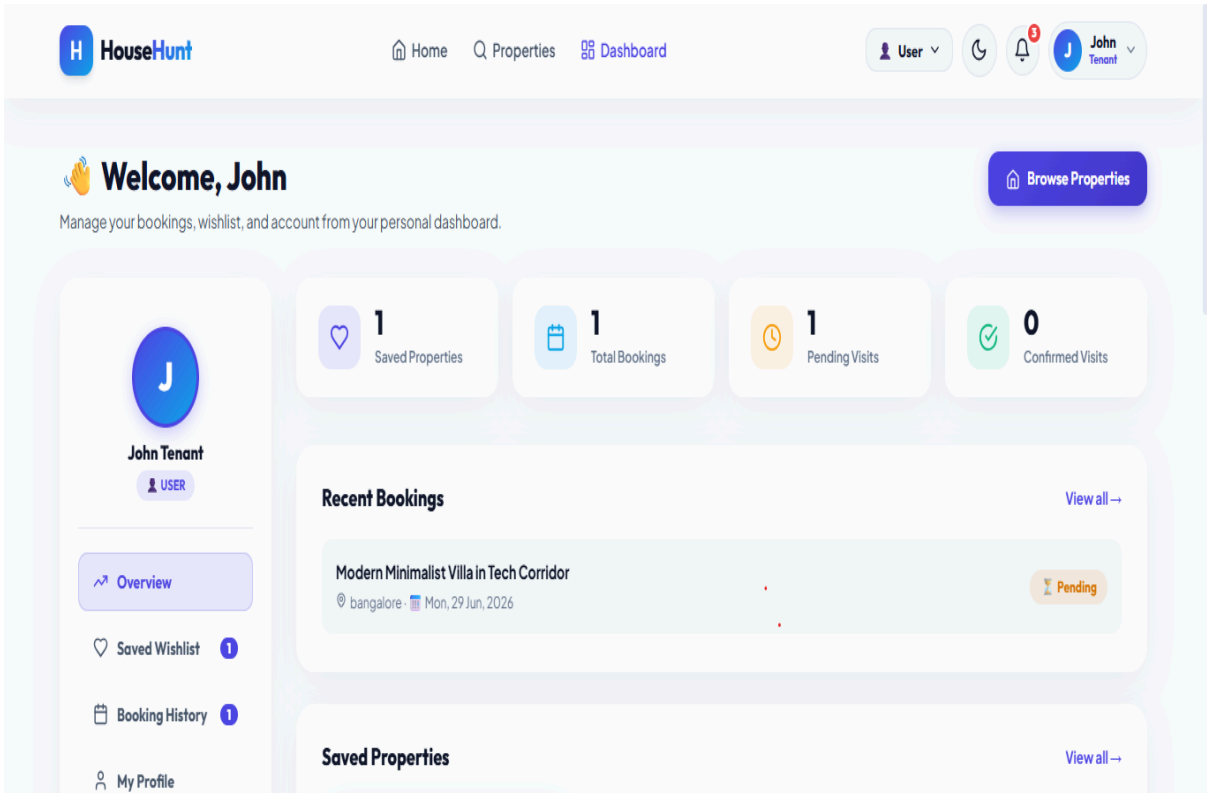

USER LOGIN PAGE

The screenshot displays the 'Welcome Back' login interface for HouseHunt. At the top, a dark navigation bar contains a grid icon, '11 lessons', and 'All Bookmarks'. Below this, a light header features the 'HouseHunt' logo, 'Home' and 'Properties' links, and user controls including a 'User' dropdown, a refresh icon, 'Log In', and a 'Sign Up' button. The main content area has a light blue background with a large, faint circular graphic. A central white card contains the login form. At the top of the card is a 'Back to Role Selection' link. Below it is a 'User Portal' button. The 'Welcome Back' heading is followed by the subtext 'Sign in to find your perfect rental home'. The 'Email Address' field is pre-filled with 'tenant@househunt.com'. The 'Password' field is masked with dots, and a 'Forgot?' link is positioned to its right. A blue 'Sign In as User' button is at the bottom of the card.

User Login Page: The **User Login Interface** enables registered users to securely access the HouseHunt platform by entering their **email address** and **password**. It includes a **"Forgot Password?"** option for account recovery and a **"Back to Role Selection"** link for changing the selected role. The clean, responsive design and dedicated **"Sign In as User"** button ensure a secure and seamless authentication experience.

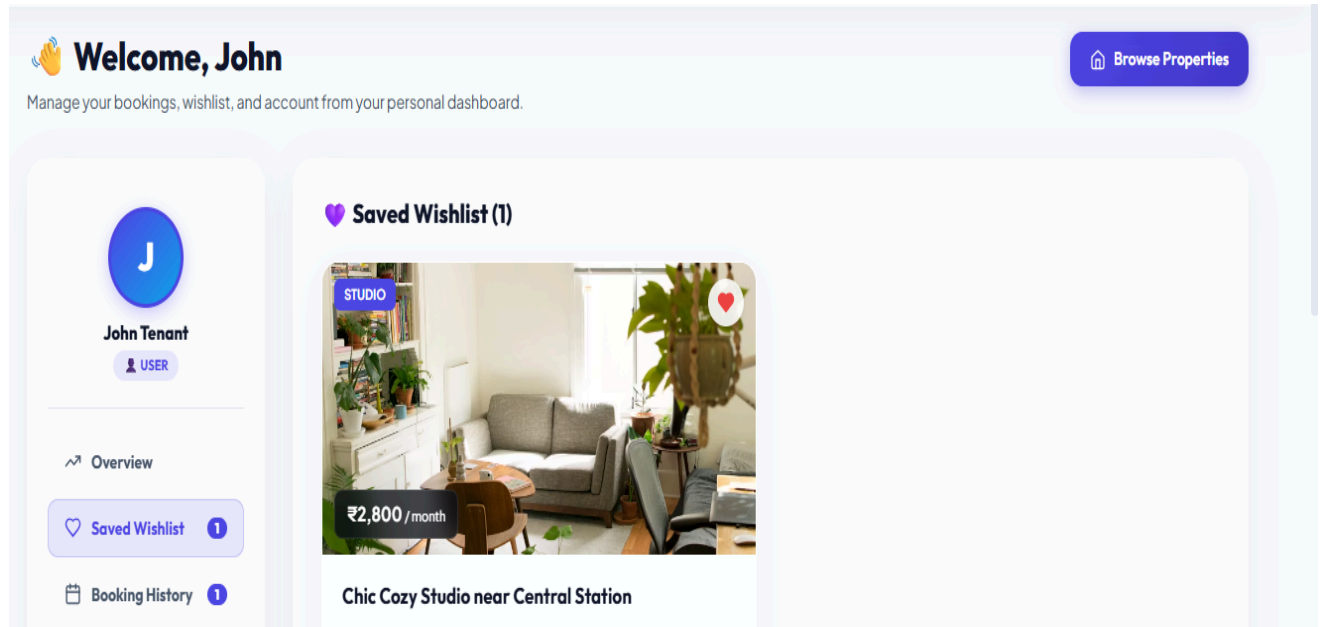

User Profile Dashboard

The **User Profile Dashboard** provides a personalized overview of the user's account, displaying **saved properties**, **booking statistics**, **pending visits**, and **confirmed visits**. It also offers quick navigation to **Wishlist**, **Booking History**, and **Profile Management**, enabling users to efficiently manage their rental activities from a single dashboard.

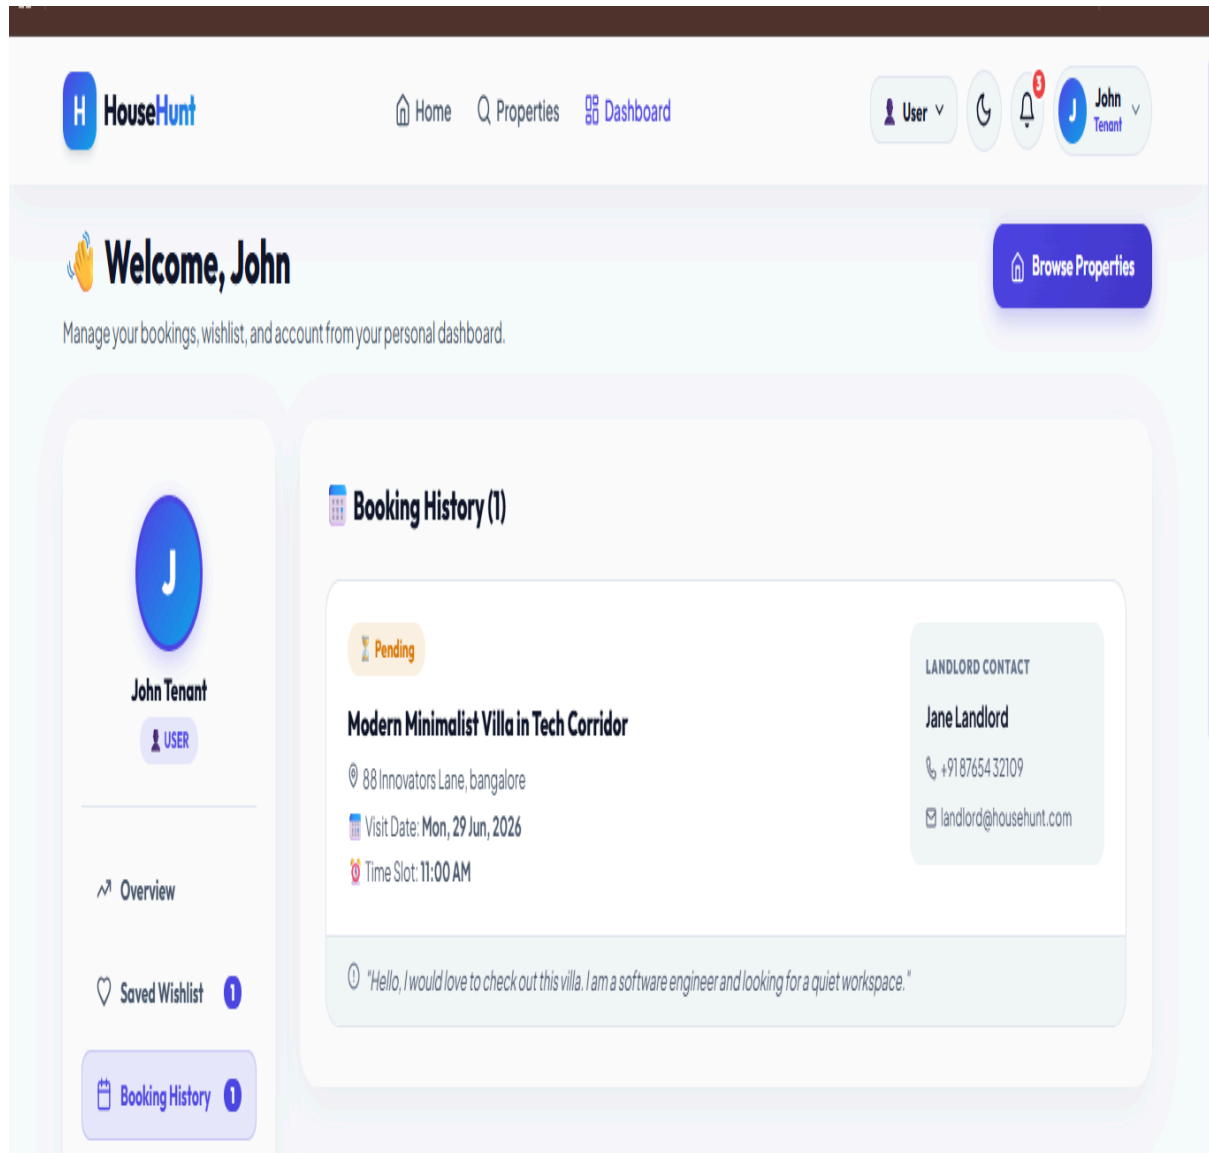

Saved Wishlist

The **Saved Wishlist** allows users to view and manage their **favorite properties** in one

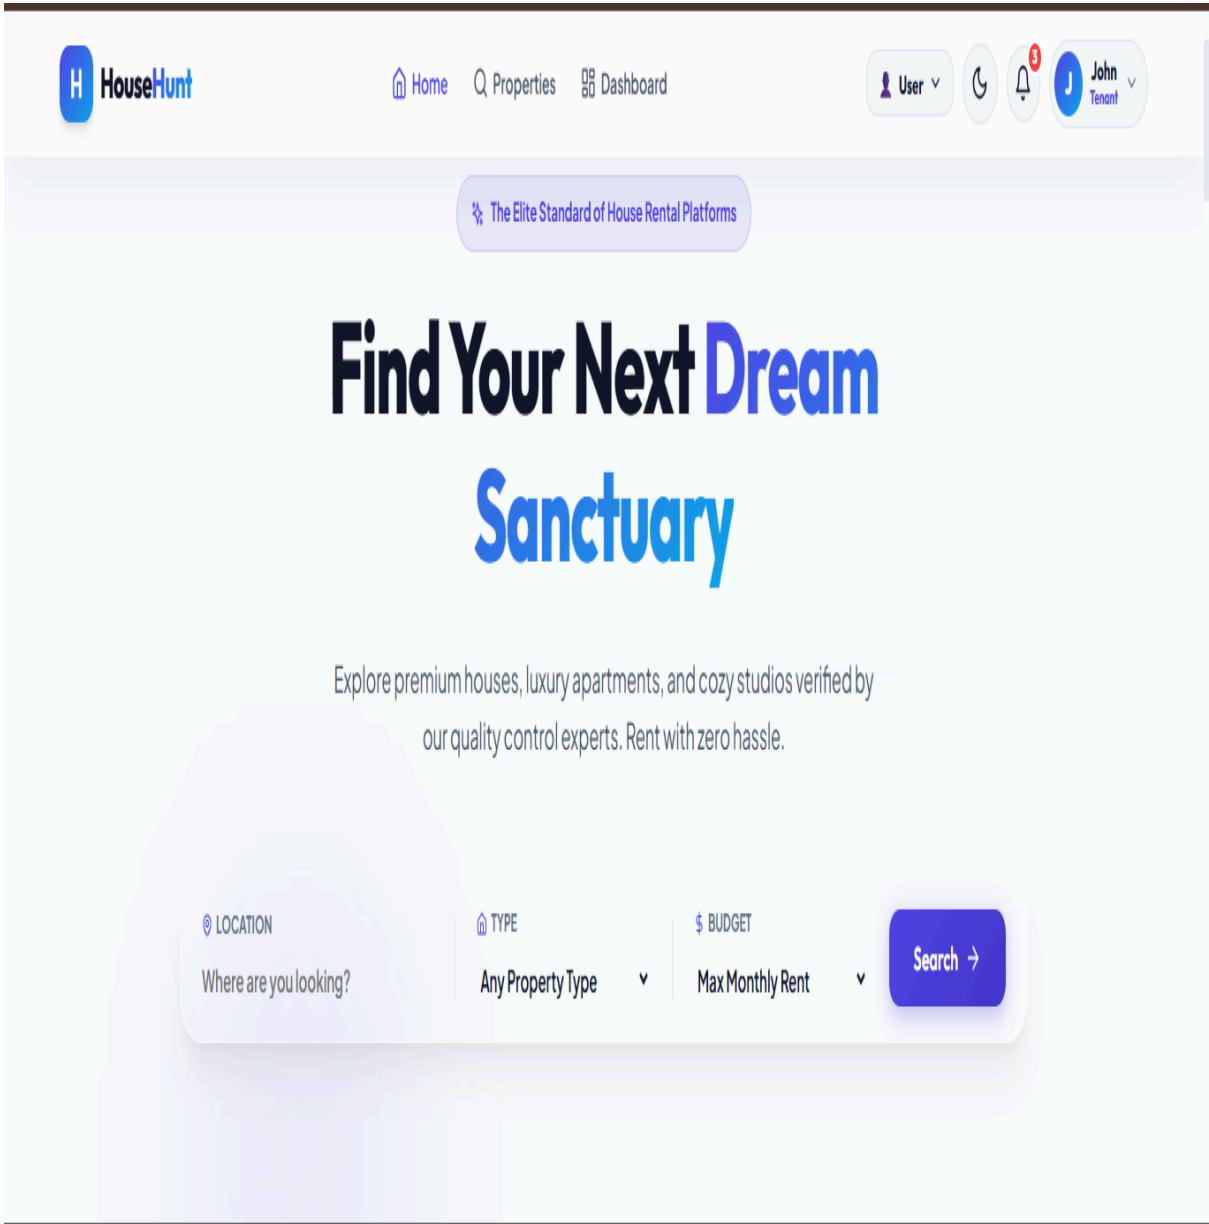

place. Each listing displays essential details such as the **property image**, **type**, **rental price**, and **location**, enabling users to quickly access and compare their preferred properties for future booking decisions.

Booking History

The **Booking History** section enables users to track all their **property visit bookings** along with their **booking status**, **scheduled date**, and **time slot**. It also displays the **landlord's contact information** and the user's booking message, allowing easy communication and efficient management of visit requests.

BROWSING WITH FILTERS

The image shows a sidebar for property search filters. It contains three dropdown menus: 'Bedrooms' with 'Any capacity', 'Bathrooms' with 'Any capacity', and 'Furnishing' with 'Any status'. Below these are two checkboxes: 'Parking Available' (checked) and 'Pets Allowed' (unchecked). At the bottom is a blue 'Apply Filter' button.

Apply Filter

The **Property Search Filters** allow users to refine property listings based on **city**, **property type**, **budget range**, **number of bedrooms**, and **bathrooms**. These advanced filtering options help users quickly find properties that match their preferences, providing a faster and more personalized property search experience.

The image shows a main search bar with a text input field containing the placeholder 'Search keywords...' and a blue 'Go' button to its right.

Administrative Control Dashboard

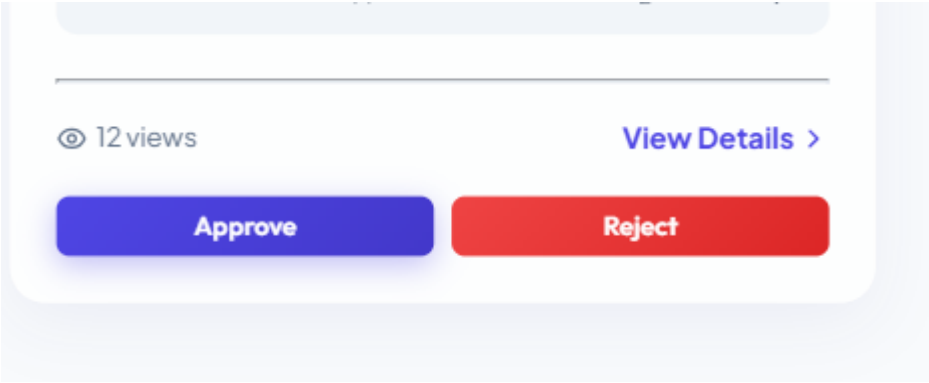

The **Administrative Control Dashboard** provides a centralized interface for monitoring the **overall platform performance**, managing **users**, reviewing **property listings**, and tracking **booking statistics**. It also enables administrators to **approve or reject property submissions**, monitor **system status**, and efficiently manage the HouseHunt platform through comprehensive analytics and administrative controls.

Pending Property Listings

- The **Pending Property Listings** section allows administrators to review newly submitted properties before they are published on the platform.
- Administrators can **approve or reject listings**, ensuring that only verified and authentic properties are available to users.
