

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	24 June 2026
Team ID	
Project Name	House Rent
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Team Discussion

Our team discussed various real-world problems related to housing and rental services. We observed that finding a suitable rental property is often time-consuming and inconvenient. Existing platforms do not provide a complete solution for tenants, landlords, and administrators in one place.

Selected Problem Statement

"Develop a secure and user-friendly web application that simplifies the house rental process by connecting tenants, landlords, and administrators through a single digital platform."

Why this Problem?

- Difficulty in finding verified rental properties.
- Lack of centralized communication between tenants and landlords.
- Manual booking and property approval process.
- Poor tracking of property visits and user management.
- Limited transparency in property listings.

HouseRent Brainstorm & Idea Prioritization

Use this template in your own brainstorming sessions so your team can unlock creative ideas and shape smart features for better house rental experiences.

 10 minutes to prepare

 1 hour to collaborate

 2-4 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

 10 minutes

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the tools

Use the template, sticky notes, or digital board to run a focused and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

 5 minutes

PROBLEM

**How might we make
house renting easier, safer
and more reliable for users?**

Key rules of brainstorming

To run a smooth and productive session

Say in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

During the brainstorming session, our team discussed several ideas for the **HouseHunt** project. We identified features such as **Secure User Registration and Login, Role-Based Access (Tenant, Landlord, Admin), Property Listing with Images, Advanced Property Search and Filters, Wishlist, Property Booking and Visit Scheduling, Reviews and Ratings, Admin Approval of Property Listings, Dashboard with Analytics, Profile Management, Image Upload, Password Reset via Email, Responsive User Interface, Dark/Light Theme Support, and JWT-based Authentication and Authorization**. These ideas were grouped based on their functionality and prioritized to finalize the most important features for the successful development of the project.

2 Implementation Plan

Define the architectural and technical execution details.

Follow the defined template for multi-platform integration.

User Module

Step-3: Idea Prioritization

Secure User Authentication – Impact: High | Feasibility: High | Priority: Very High

Property Listing Management – Impact: High | Feasibility: High | Priority: Very High

Property Search & Filters – Impact: High | Feasibility: High | Priority: Very High

Visit Booking System – Impact: High | Feasibility: Medium | Priority: High

Admin Dashboard – Impact: High | Feasibility: Medium | Priority: High

Wishlist Feature – Impact: Medium | Feasibility: High | Priority: Medium

Reviews & Ratings – Impact: Medium | Feasibility: High | Priority: Medium

Email Password Reset – Impact: Medium | Feasibility: Medium | Priority: Medium

Theme Switching – Impact: Low | Feasibility: High | Priority: Low

Property Analytics – Impact: Medium | Feasibility: Medium | Priority: Medium

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
