

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	28 June 2026
Team ID	
Project Name	House Rent
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration & Login	Account registration (Tenant, Landlord, Admin) Password hashing via Bcrypt Token-based session login (JWT)
FR-2	Password Management	Forgot password request Reset password via emailed token Auto-logout on expired session
FR-3	Property Management	Add new property with details Upload up to 10 images (max 5MB) Admin approval/rejection toggle
FR-4	Property Search	Search properties by city, price, and type City search autocomplete City search autocomplete
FR-5	Bookings & Reviews	Schedule property visit bookings Approve or cancel incoming booking requests Write a single property rating and review
FR-6	Admin Dashboard	View global system metrics and stats Update user roles directly

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Role-based dashboards with a Light/Dark theme toggle
NFR-2	Security	Secure API route guards and restricted image-only file uploads.
NFR-3	Reliability	DB validation rules and React boundaries to prevent UI crashes.
NFR-4	Performance	Fast load times using Vite and indexed database queries
NFR-5	Availability	Independent frontend client that runs even if the API is offline.
NFR-6	Scalability	Decoupled monorepo architecture for easy independent scaling.
